Summary

Entry-level web developer with an interest in back-end development and data processing. Experienced with JavaScript, Python, and SQLite3 for building task automation and small applications. Currently pursuing a Technical Degree in Application and Web Development at Ranken Technical College.

Technical skills

- Languages: Python, JavaScript, HTML/CSS, SQLite, C#
- Frameworks/Libraries: NumPy, Pandas, Matplotlib
- Tools & Environments: Visual Studio Code, Google Colab, Repl.it, Eclipse
- Other: Git/GitHub, Microsoft Office, Google Workspace, Zoom, Workday, ADP

Projects

RuneLog Discord Bot - JavaScript, SQLite3, API

- Developed a back-end-focused Discord bot using JavaScript (ESM) and Node.js
- Integrated with the RuneMetrics API to fetch and parse player activity data on a schedule
- Designed and maintained a SQLite3 database to store user data, activity logs, and timestamps for efficient lookup and tracking

Developer Portfolio Website - HTML, CSS, JavaScript

- HTML, CSS, and JavaScript, with a focus on responsive design for mobile and desktop users
- Custom portfolio website to present projects, technical skills, and easy ways to connect
- carson-young18.github.io
