Summary

Full Stack Web Developer with hands-on experience building REST APIs and responsive front-end applications using React, Node.js, Express, and TypeScript. Strong foundation in object-oriented programming and database-backed applications. Currently pursuing an Application & Web Development degree and actively building full-stack projects with modern frameworks and best practices.

Skills

Languages: JavaScript, TypeScript, C#, Python, HTML	Frontend: React, Tailwind CSS, Bootstrap
Backend: Node.js, Express	Databases: MongoDB, SQL
Concepts: REST APIs, OOP, Data Validation, Responsive Design	Tools: Git, GitHub, VS Code

Projects

Issue Tracker - React, Express, Node.js, MongoDB

- Built a full-stack issue tracking application using React, Express, Node.js, and MongoDB.
- Implemented RESTful APIs for user authentication, issue creation, and status updates with server-side validation.
- Designed responsive UI with Tailwind CSS.

League Build Maker - C#, ASP.NET Core, Entity Framework, SQL

- Developed a web application using ASP.NET Core that allows users to create, manage, and store custom builds.
- Implemented persistent data storage using Entity Framework with a relational database to handle build data.
- Designed backend logic using object-oriented programming principles to ensure maintainability and scalability.
- Structured application logic using models, views, and controllers to separate concerns and improve maintainability.

RuneLog - Node.js, Discord API, MongoDB, REST APIs

- Built a Node.js based Discord bot that automatically retrieves and tracks player activity data using the RuneMetrics API.
- Integrated the Discord API to post automated updates to Discord channels when new activity data is detected.
- Designed the bot to run on a scheduled interval, enabling hands-free, real-time updates for Discord communities.
- Stored and managed historical activity data in MongoDB to track changes and prevent duplicate Discord postings.

Education

Ranken Technical College	Associate of Technology
Application and Web Development	St. Louis, MO • Aug 2024 - May 2026

Experience

Treats Unleashed	Ladue, MO
Assistant Manager	Nov 2021 - Present

- Provided hands-on customer support by assessing needs, resolving issues, and maintaining up-to-date product knowledge to ensure a high-quality customer experience.
- Assisted in supervising and coordinating a team of 10 employees, supporting scheduling, task delegation, and performance accountability.
- Performed back-office operations including reporting, record maintenance, and operational organization to support efficient store management.
